

CYOA Module Sample Rubric

Rubric for module responses:

A= Responses display high-level engagement with the required readings/resources and underlying concepts. Author supports claims/hypotheses by citing specific evidence and answers all questions. Explicit reference is made to all assigned resources. No typos or grammatical mistakes.

B= Response fits most of the criteria above, but does not fulfill or is weak in some of the relevant elements.

C= Sources or examples are not cited to support claims. One or more resource is omitted from discussion in composition.

D= Response shows little or no evidence that readings were completed, understood, or carefully considered. Submissions are largely personal opinions or feelings, or without supporting statements from the readings or outside material.

F=No submission.
